

How do you know your members are who they claim to be?

Product Description

IConcepts proudly presents "M4ALL" – Large-scale Enterprise Time Attendance solutions. The solutions cover all your fingerprint biometric needs from employee database data entry, fingerprint capturing and matching to advanced reporting.

M4ALL is designed to be the most user friendly application on PC. Using the latest technology, the program allows user to make changes based on requirements and business size. M4ALL is the only product in the market that has been developed from FBI and Department of Justice, USA standards. Moreover, M4ALL does not compromise on quality; thus, we use nothing but the best. Our scanner is the real deal and is the only scanner in the market used for time attendance that meets FBI and Immigration standards. When you are serious about fingerprint matching, M4ALL is your ideal choice.

The most important feature of M4ALL that set us apart from the rest is its ability to match large-scale fingerprint database with speed, accuracy and precision. The software is designed to be used in national security biometric projects with the highest standards; we provide the capability and technology that allows the system to submit data to the FBI database that have more than 50 million finger prints. When it comes to fingerprint biometrics, IConcepts have the know-how and the capability to delivery.

Why M4ALL?

- ➊ **Larger Matching Capacity** Designed to serve in biometric solutions for national security, M4ALL has a capacity to match large-scale fingerprint (more than 1,000,000 records) which is suitable for enterprise or the organization that requires high accuracy fingerprint matching.
- ➋ **Most Accurate** With the lowest False Acceptation Rate ($\leq 0.001\%$) and False Reject Rate ($\leq 0.01\%$) in the biometric market
- ➌ **Faster** Reduce matching time with speeds of up to more than 30,000-finger print per second.

M4ALL Product Details

- ➊ Record time attendance and generate the following reports:
 - ☑ In-out time attendance report;
 - ☑ Report on attendance, late and absent by year, month or day; and
 - ☑ Employee detail report.
- ➋ Save money on your payroll, by eliminating other people clocking in on behalf of other employee
- ➌ Improve overall business efficiency by increasing clocking in-out speed, and employee monitoring
- ➍ Able to capture both flat and roll fingerprints to ensure maximum surface area is used for matching
- ➎ Able to keep employee database depending on requirements such as name, address, picture and etc.
- ➏ Using FBI's standard Optics CCD Scanner

After Sales Services

- ➊ 1 Year scanner warranty or throughout maintenance contract
- ➋ 100% satisfaction guarantee
- ➌ On-site installation and fixing by skillful engineer with scanner replacement throughout the maintenance contract
- ➍ On-site training
- ➎ Life-time free phone consultation
